will go forward on the steamer Australia from San Francisco to-day. What

these despatches contain none of the officials in either department will say. It was

MR. HERBERT AT THE NAVY YARD.

Secretary Herbert paid his first official visit

to the Brooklyn Navy Yard yesterday morn-

ing. He was accompanied by Congressman William J. Coombs of Brooklyn, at whose

house he is staying. As his carriage drove in at the main entrance, a salute of seventeen

guns was fired from the Vermont. The marine guard was drawn up in front of the receiving

store, and the officers of the station were in

that he might rank any foreign officers present on that occasion.

"No." said Mr. Herbert. "these foreign officers are coming over here to take part in the parade, not to command it. I anticipate no trouble whatever arising from a conflict of rank between the officers. All will, no doubt, take the place in the parade assigned to them and there is no necessity for the promotion of Admiral Gherardi."

The "welcome home" dinner to ex-Secretary Tracy at the Hamilton Club in Brooklyn will take place to night and Secretary Herbert will also be present. Among the guests will be Commodore Erben, Vice-Admiral Gherardi, and many of the commanding officers from the North Atlantic squadron. The speakers will include ex-Secretary Tracy and his successor, Justice Bartlett, Justice Cullen, Mayor Boody, S. V. White, and St. Clair McKelway.

The Expected Quarrel Between the New York Senators and the President May Come Over His Confirmation-Secretary Castlete Assources His Policy Renards ing Appointments in the Lighthouse and Lite-saving Service - No Incumbents to be Removed on Account of Politics.

WASHINGTON, March 15.-It is possible that the long-expected quarrel between the New York Senators and President Cleveland may some over the nomination, sent to the Senate to-day, of Edward B. Whitney to be assistant Attorney General Senators Hill and Murphy are not willing to say anything for publication beyond the statement that the appointment was not made upon their recommendation, and that they were not consulted with regard to it. The record of Mr. Whitney is being looked into, however, and it is safe to assume that his nomination be seted upon hastily, or Domecracy has been fully looked into. It is probable that Senator Hill will be guided somewhat by the fact of hether Mr. Whitney was or was not a boiling Democrat in 1888. It is known that in 1892 Mr. Whitney was a delegate to the anti-snapper convention in Syracuse, and a member of anti-snapper delegation that afterward went to Chicago to protest against the nomination of Senator Hill for President. It is known also that he has always been a political ter Senator laughingly remarked to-night make a fuss about such an unimportant appointment as that of an assistant Attorney-Democratic Senators generally are indig-

Many of these Senators look to Senator Hill to resent what they regard as an intentional indignity to him and his party, and are confident that he will do so. The nomination of Mr. Whitney will go to the Judiciary Committee, of which Senator Hill has just been made a member by the voluntary act of his colleagues, and he is undoubtedly in a position to block the President's policy of appointing anti-Democrats from New York State if he sees ilt. The recent conference hetween President Cleveland and Senator Hill, however friendly it may have been on the surface, has not changed the relations of these two leaders in the slightest degree. They regard each other just as they did before the conference hose hook place, and so far as Senator Hill is concerned, the conference has not affected in the least his attitude toward the President. As for Senator Murphy, he has not forgo ten that Mr. Cleveland was the leader of his opponents in his own party when he became a candidate for the Senate, but whether these two Senators will assent to the appointment of the anti-snapper, Mr. Whitney, remains to be seen.

Senator Hill expects to leave here to-morrow for a short trip to New York city and Albany. He will return to Washington on Monday, in season to attend the Senate caucus, at which the elective officers of the Senate will be chosen. look to Senator Hill to resent what they regard

The President has accepted the resignation

The President has accepted the resignation of Gov. W. M. Stone of Iowa, Commissioner of the General Land Office, to take effect March 24 next. Secretary Hoke Smith has appointed M. Cooper Pope of Washington, Ga., Chief of the Division of Lands and Railroads, Interior Department, vice F. A. Weaver of Pennsylvania, resigned.

It is quite probable that some of the recently published charges against W. M. Roach, the new Senator from North Dakota, will be called up in the Senate and made the subject of an inquiry as a privileged matter. According to the story sent out from Bismarck and published extensively at the time of the Senatorial election some weeks ago, Mr. Roach went to the Territory of Dakota many years ago charged with having stolen \$64.000 from the Citizens' National Bank of Washington. Within the past few days several Eastern and one or two Western papers have ropublished the story in detail. When the discovery of his indiscretion was made he turned over his property to his father-in-law, a wealthy resident of Washington, and made up a part of the amount, his contribution, it is said, being about \$18,000. Roach had led an honorable life prior to that, and after the settlement of the trouble with the bank he went to Dakota, where he has since heen recognized as an upright and useful citizen and an honest man. Some of the Senators are not disposed to let the matter pass without inquiry, since the story has been published, and if the Democrate do not call it up as a matter of privilege, there are several Republicans who express an intention to do, and, at the same time, to question Mr. Roach's right to a seat in the Senate. Roach's right to a seat in the Senate.

Senator Stewart of Nevada is having a hard time in finding "just where he is at" in the matter of committee assignments. He has almatter of sommittee assignments. He has always been a Republican until the last campaign, when he ran for reflection as a candidate of the Free Silver party. He was not even distinguished as a Populist when he came back, but was recognized as representing practically a party of his own. He announced that he had abandoned the Republican faith, but he remained out of the Democratic camp, too, herding by himself, as it were. Although he stayed away from the caucuses of both the old parties, like the Populist Senators, he was kindly provided for by the Democrats. They gave him a committee chairmanship, retaining him at the head of his old committee, mines and Mining. The Republican caucus, in ignorance of what the Democrats were doing for Mr. Stewart, kindly gave him his old place on the Appropriations Committee, cheerfully classifying him as a Republican. When the Democratic committees were announced the discovery was made that Senator Stewart had been treated as one of the Democratic faith. The Republicans were indignant, and the first thing they did this morning was to drop Mr. Stewart from the Appropriations Committee and put Mr. Teller in his place. Of course, the Senator feels badly about it, as he was very anxious to be retained on that Important committee of which he has long been a member. In reply, I see leave to inform you that the positions for which Mr. Green and Mr. Borger apply are not vacant, and me cause for the removal of the present in cumbents is known. The great humber of the present in the combination of the present in the property of the vacant in the provents and a faithful performance of their responsible duties, in volving the safety of the vast amount of property and the number of lives intrusted to their care, depends upon the good character and competency of the keepers themselves.

It has been and is the policy of the department, and of the lighthouse establishment, to succurage and insure a high standard among them, by relating them in the service curring competency and good behavior, and by spomoting and transferring them to better stations as rewards for good service. Light keepers are held to a strict performance of office. It has been the outform citation for many years to regard the lighthouse establishment as a non-partisan arrive. The Republicans contented themselves with removing Mr. Stewart from the Appropriations Committee. He remains as a representative of the minority in other committees, and is the ranking member of the minority on the Committee on Irrigation and licelamation of Arid Lands. Mr. Teller, as will be seen, gives up his place on the Committee on Privileges and Elections, of which he was Chairman, and would be the ranking member, and goes to the foot of the list on the Appropriations Committee. Mr. Higgins is substituted for Mr. Teller on the Elections Committee. The Republicans retain all of their members of the Committee on Judiclary, by reason of the fact that it has been increased from a total membership of aine to eleven.

In the Senate to-day Mr. Gorman offered a resolution as ming the committees of the Senate as agreed upon by both parties, and the resolution was agreed to. With the adoption of this rosolution, which caused the new committees to go into effect, the Democrats this afternoon became possessed of that inacertant branch of the Senate. Immediately afterward a general shifting of members began. All Republicans who have not been fortunate enough to get minor chairmanships will go to the Maliby House and occupy the rooms the Democrats have occupied for several years. Mr. Call, who necomes the new Chairman of the Committee on Civil Service and Letrenchment, had two large rooms in this building and did not desire to change them, so that left the rooms occupied by Mr. Brice, Chairman of the Committee under the last Congress vacant. It is a rather small room on the ground floor, but nicely situated, and was aromated by Mr. Brice, Chairman of the Committee on Pacific Railroads. This is the only change in the location of committee rooms so far made, but one or two others may be determined upon later in the week.

Mr. Blount will investigate the question of how the overthrow of Lilioukalant's Government was accomplished, whether the provisional Government really represents the popular sentiment of the islands is desirable as a business matter. It is further asserted that Mr. Blount will inform the provisional Government that the United States will not aid in maintaining it against any but foreign aggression. It will not sustain it against any other form of government the people of the islands may see lit to attempt to establish. ago for \$150,000 by Mrs. Mary E. Kinney. The heirs of her estate, some of whom live in this city and some in California, wished to settle the estate. The matter was brought before the courts by Francis Kinney, the tobacco merchant. Hecorder Smyth, Frederic Cou-dert, and well-known real estate men were present when Auctioneer Kennelly offered the property, which fronts 100 feet 24, inches on Broadway and 120 feet 3, inch on Twenty-fourth street.

property, which fronts 100 feet 2% inches on Broadway and 120 feet % inch on Twenty-fourth street.

The first bid was an even \$1,000,000, made by Mr. Martin of Martin Bros., brokers at 34 Wall street. The Rev. Charles F. Hoffman, brother of Dean Hoffman, advanced the bid \$25,000. The bidding was carried on by Dr. Hoffman and his son, and by Mr. Martin, advancing the bid \$5,000 at a time, and soon Mr. Da Cunha joined in. Dr. Hoffman cried out cheerily \$1,100,000. Mr. Martin began to bite his moustache and became silent. The Hoffmans and Mr. Da Cunha keet at it until \$1,178,000 was reached by small bids. Then Dr. Hoffman called out \$5,200,000. When \$1,208,000 was bid the Hoffmans looked at each other, shook their heads, and quit. Mr. Da Cunha selled. Mr. Da Cunha declined to say whether he bought for himself. It was said that he represented Francis Kinney. Auctioneer Kennelley said that the lease on the property from May, 1803, to May, 1804, is \$60,400.

against any other form of government the people of the islands may see lit to attempt to establish.

It is said that the Administration early received information, which was deemed to be trustworthy, that the overthrow of Queen Liliquikalani and the establishment of a provisional Government were the results of a plan formulated by the sugar-producing interests of the islands, and which was furthered in San Francisco. Upon receiving this information the withdrawal of the treaty and the appointment of a countiesion to investigate the situation were determined. The fact seems to be definitely settled that Mr. Blount has started for San Francisco, and that he has been accompanied by Mr. Ellis Mills, a confidential stenographer of the State Department. WOMAN'S WORDS TO WOMEN

CERTAINLY THE MOST UNUSUAL THAT EFER WERE PENNED.

Mrs. Henderson of Port Chester, N. Y. Graphically Tells of Her Troubles, Her Struggles, and Her Triumphs,

One of the most wonderful letters ever written is that which follows. Any one who reads it is certain to be absorbingly interested. It is from Mrs. J. Henderson of Port Chester. N. Y. She sars.

"I am a woman and I wish to speak frankly and freely to women. There are thousands of young girls, middle aged, and even elderly ladies to-day in the greatest danger and they do not know it. They are standing upon the brink of a precipice and do not realize it. It is in the hope that the wonderful experience through which I have passed may be a blessing and a warning to them that causes me to

write it.

"About two years ago, it being the 'change of life' with me. I was treated by three of the best physicians in this place. At first I was treated for bronchitis, growing worse all the time, coughing constantly, until my voice was only a whisper. My head pained me. I had little, if any, appetite. I feit tired most of the time, and yet was sleepless and re-tless. I was weak, nervous, unstrung; I lost all interest in life,

At this time a further examination on the part of the dectors revealed the terrible fact that I was suffering from Hright's disease of the kidners in its most aggravated form. The dector was urged to do all he could for me. He visited me saveral times daily and finally said to my husband: I might as well teil you plainly that your wife will not live the day out.' At that time my condition was fearful. My right side was paralyzed, my face distorted, and my tongue stiffsned so that I could not speak. It was while in this deplorable condition that my husband, who had been my constant attendant and nurse, resolved if I lived until daylight to try a remedy of while we had heard much, but concerping which we knew but little. I felt the effects of it at once. The tone of my stomach was restored so that I could retain the nourishment given me. I continued to improve, the paralysis left me, the bloating cased in the prove of the effects of its wonderful Safe Cure in many of my friends and acquaintances. I know there are many women who do not realize their danger even at all conditions of life. The young woman is in peril even when on the threshold of womanhood. The wife has a legion of dangers, threatening to overcome left and time. The mother is beset by peril, as a horde of troubles consequent upon maternity continually menace her. When, after passing through all these dangers, a woman arrives at the time when change of life occurs, she is again beset by the selection of the effects of this wonderful Safe Cure in the large of life occurs, she is again beset by the selection of largers.
